I Love the music, the gameplay is Fun too.... worth every penny

+Rec. a good predecessor to lords of the realm 2. Enjoyable enough for the hourish I played it, but doesn't seem to let you replay it* and an hour is all I got out of it. Additionally, you're kind of screwed on the puzzles if you have any accessibility issues (vision, hearing, etc -- some of the info you get is borderline impossible to parse) or English isn't your first language. Fun in concept but doesn't deliver enough to be worth it.

*As evidenced by the thread posted by Jet below, this seems to be intentional, and I feel like people should know that before spending their money.. \udb40\udc21. The amount of content in this game is very minimal, 5 stages. If you don't encounter any bugs, it'll take you 20-30 minutes to breeze through it. Unfortunately for me, every single level I found a bug that made me restart the level. The hit boxes are a joke too..I mean it was kinda fun but it definitely isn't anything special...or even good. The only reason to get the game is the achievements. Super easy to beat the game through a little trial and error. For \$1.99 you can't complain either. If you're just curious though, maybe just look up a video on youtube instead of paying the price.

obtuse wannabe puzzle quest with dumb mechanics, worthless tutorial and impractical UI. waste of time.. Strong indy Lovecraftian horror game, it is atmospheric and looks pretty good. Great value for price, especially during sales. 8/10. get the party pack. How do you rate this game?

Option A: Positive

Option B: Positive

Option C: Positive. 10 легио-деталек из 10

I reccomend this game to all perfectionists like me. Game is nice. 10 studs of 10. Now even though this game is quite good and funny, most of the puzzles were pretty difficult to solve. I mean sure it's a detective game of course the puzzles have to be hard but they could be a little bit easier, i recommend playing this game only if you are good at solving puzzles.. It is so wonderful. Wow, just wow!

I took soooooo many screenshots. It's not that difficult, but it's loads of fun..!

I really wish the developer had made this the second episode, as I think it maintains (even increases) momentum from their wonderful first episode. This one get a thumbs WAY UP..!!! :). An original game enhanced into a greater gameplay.
