PrinterAdmin Print Job Manager 7.1.1 ( Full Version For PC ) -.McLaren, Mercedes and Honda race to keep pace with Mercedes The likely drivers of the future will benefit from a decision to be fully investigated in Formula 1's new two-yearly Technical Regulations. "There have been worries there would be less income, but we've had great discussions with the big engine suppliers," said Lance Stroll of his father's plans for Force India. McLaren had a successful season and expect to use their engine supply deal with Mercedes to guarantee their place at the top of the grid again, despite the power unit being nominated as a sensitive issue and one that should be investigated for 2021. "We do have a supply contract with Mercedes," said Eric Boullier. "That will help. And we have a development contract with McLaren, so we'll be fine." "We still need to work on the idea of being in the midfield, as it's our weak point." "The sound system will go forward, I believe. We're trying to improve the technology, as well." The driver market may still be open for disruption, but Force India think that the midfield squad they are constructing with Mercedes and Red Bull Racing is one of the best in the sport. "We've got a great relationship with Mercedes," said Esteban Ocon. "They were very clear this year. We're not getting ahead of ourselves. "Last year was great for us, but for us it's about being better now." Headlines Ferrari have been given a reprimand for the decision to pit Fernando Alonso in the lead in Spain on the final lap of the Spanish Grand Prix. F1's sporting director, Ross Brawn, said the penalty was important to send a message to other teams. "If you put a penalty on yourself and you don't act upon it, you probably won' f678ea9f9e
